Hospice Administrator Certificate Program

The goal of the Hospice Administrator Certificate Program (HACP) is to advance the skills and knowledge base of hospice administrators so they may position their organizations to thrive in the rapidly changing health care environment. The three-day curriculum is designed to prepare beginning and intermediate-level hospice administrators for clinical, financial and strategic challenges. The program offers 18 hours of continuing education credits. Participants who pass the Certification Exam will receive the Certified Hospice Administrator's certificate.

Attending the HACP is a strategic investment for you and your hospice agency. Upon successful completion of the HACP, you will be able to:

- **Identify** and implement key strategic management principles to position your hospice for success.
- **Implement** key financial management strategies to prepare and interpret financial statements and to understand basic principles of the hospice cost report.
- **Understand** the importance of various accounting methods to improve hospice performance and position for success.
- **Understand** process improvement and related planning and implementation activities to improve your hospice organization's strategic position.
- **Integrate** quality requirements of Medicare certification & voluntary accreditation with hospice clinical operations and management information system needs.
- **Integrate** corporate compliance issues with clinical, financial and legal integrity of your hospice organization.

Who Should Attend:

Senior administrators and managers including CEOs, CFOs, COOs, directors and other hospice senior level managers with less than three years experience as hospice administrator.

Recommended: At least one year (less than three years) of Administrator experience

Advanced Hospice Administrator Certificate Program

The AHACP uses a case study approach, popular with business schools, to enhance the basic information you have learned in your current role, or perhaps while attending the introductory Hospice Administrator Certificate Program. Each day offers you opportunities to listen to an expert in strategic, financial, or legal issues, then move on to the actual implementation analysis of a particular topic. This engaging format allows for point/counter-point discussions with the expert speakers and your hospice colleagues throughout each day.

The three-day advanced curriculum is designed to move you upstream to a new level of understanding to go beyond the basics. The AHACP is a three module curriculum:

1. Advanced Hospice Strategic Positioning:

Now You Know What To Do; How Do You Do It?

2. Advanced Financial Management:

Now You Have the Strategies; How Will You Finance Them?

3. Advanced Legal Considerations:

Now You Know Strategies and Financing; What are the Related Legal Issues?

Who Should Attend:

The Advanced Hospice Administrator Certificate Program is designed for administrators/senior managers with more than three years of hospice administrator experience, or who have attended the Hospice Administrator Certificate program and passed the post-test.

Recommended: More than three years of Administrator experience in Hospice.

Home Care Administrator Certificate Program

The Home Care Administrator Certificate Program (HCACP) is an interactive, intensive educational program providing leading edge management concepts and skills that are critical for Medicare-certified home care managers and administrators to know.

Participating in the HCACP is an educational investment for you and your home care organization. Upon successful completion of the HCACP, you will be able to:

- **Understand** marketing principles and guidelines to assist with growth and program success.
- **Become** familiar with process improvement and related planning and implementation activities to improve operational efficiencies.
- **Realize** the importance of accounting methods to position your agency for success.
- **Learn** how to analyze case mix and ways to improve agency clinical and financial performance.

Who Should Attend:

Senior administrators and managers including CEOs, CFOs, COOs, directors and other senior level managers with less than three years experience as home care administrator.

Recommended: At least one year (less than three years) of Administrator experience

Advanced Home Care Administrator Certificate Program

The Advanced Home Care Administrator Certificate Program provides you with specific and concrete examples to strategically position your organization for growth and success. Learn from experts in strategic, financial, or legal issues, then move on to the actual implementation analysis of a particular topic. This case study approach will enhance the basic information you have learned in your current role, or perhaps while attending the introductory Home Care Administrator Certificate Program. Experience the point/counter-point discussions with your colleagues and expert speakers each day.

This advanced curriculum is designed to move you upstream to a higher level of understanding beyond the basics. The AHACP is a three module curriculum:

1. Advanced Home Care Strategic Positioning:

Now You Know What To Do; How Do You Do It?

2. Advanced Financial Management:

Now You Have the Strategies; How Will You Finance Them?

3. Advanced Legal Considerations:

Now You Know Strategies and Financing; What are the Related Legal Issues?

Who Should Attend:

The Advanced Home Care Administrator Certificate Program is designed for administrators/senior managers with more than three years of home care administrator experience, or who have attended the Home Care Administrator Certificate program and passed the post-test.

Recommended: More than three years of Administrator experience in Home Care.
